It's been a very busy year so far. It's been very business as usual at Profile, serving our

specialist security services including static guards, retail security and mobile patrol up and down the UK. We have had multiple new contracts including a contract with T.J Hughes. Region Security Guarding has been focusing on getting things right first time and always finding new ways to improve our security to make sure your company is always fully protected. For the rest of the year we will find even more ways to make our company better striving to be the best.

REGION SECURITY GUARDING LTD is exceeding all the targets set for 2017

Region Security Guarding continues to provide a range of security services delivered by professional security guards and officers. We have multiple years experience providing the best security across the UK.

As our company continues to grow so does our expectations of our security services. We are based in the West Midlands but this doesn't stop us from giving companies all around the country our tailed security; with contracts currently running in several places around the country.

We have just conducted our quality assurance for the quarter of 2017 and we are pleased to announce we have not only met but exceeded all our targets set by our management team.

This is great news for our organisation and we would like to take this opportunity to thank all our team for all your hard work, the areas we reviewed were as followed.

Region Security Guarding Ltd, continues to hold an SIA Approved Contractor status for the provision of Security Guarding Services. All our guards hold a SIA approved contractor.

This is aimed to approve standards and performance of the security provided.

Latest SIA News

The contracts that the SIA has with external assessment bodies are due to come to an end in March 2017. We have recently completed a tender process for both the Standard route and Passport scheme routes.

The following assessing bodies have been awarded contracts to deliver standard route assessment services on behalf of the SIA.

We are working closely with the assessing bodies that will no longer be offering these services, to ensure a smooth transition for all existing approved contractors that currently use their services.

Any approved contractor who is not currently using one of the newly appointed assessment bodies should contact their current assessing body to seek further assistance regarding transition.
